JOURNAL OF ANATOMY

CONDUCTED ON BEHALF OF THE ANATOMICAL SOCIETY
OF GREAT BRITAIN AND IRELAND BY

D. BULMER
R. E. COUPLAND
M. H. DAY
M. J. T. FITZGERALD
T. W. GLENISTER
E. G. GRAY
F. R. JOHNSON
R. M. H. McMINN
G. J. ROMANES
R. J. SCOTHORNE
J. W. SMITH

J. J. PRITCHARD (EDITOR)

VOLUME 124
SEPTEMBER–DECEMBER 1977

CAMBRIDGE UNIVERSITY PRESS
CAMBRIDGE · LONDON · NEW YORK

Contents

PART 1 SEPTEMBER 1977

PAGE

Extended survival of pancreatic islet allografts in the testis of guinea-pigs. By J. FERGUSON and R. J. SCOTHORNE 1

Further studies on the transplantation of isolated pancreatic islets. By J. FERGUSON and R. J. SCOTHORNE 9

The morphological characterization of the haematopoietic stem cell (CFU-S). By D. BRYNMOR THOMAS, J. G. SHARP and CECILIE V. BRISCOE . . 21

Histochemistry of blood and bone marrow smears of the straw-coloured fruit-eating bat, *Eidolon helvum*. By A. E. CAXTON-MARTINS . . . 31

A quantitative study of myelination following hypoxic stress. By R. R. STURROCK 41

Ameloblast modulation in the maturation zone of the rat incisor enamel organ. A light and electron microscopic study. By KAJ JOSEPHENSEN and OLE FEJERSKOV 45

A structural and developmental study of adepidermal granules in the anuran tadpole using tannic acid fixation. By T. TACHIBANA, V. MIZUHIRA, Y. FUTAESAKU and K. WATANABE 71

Uptake of horseradish peroxidase by sensory nerve fibres *in vitro*. By KLAUS TISCHNER 83

The adrenergic innervation of the submandibular gland of the cat and the effects of various surgical denervations on these nerves. A histochemical and ultrastructural study including the use of 5-hydroxydopamine. By J. R. GARRETT and S. K. KEMPLAY 99

The innervation of the adrenal cortex in the sheep, *Ovis ovis*. By P. M. ROBINSON, R. A. PERRY, K. J. HARDY, J. P. COGHLAN and B. A. SCOGGINS . 117

Postnatal growth of the mouse lung. By ROGER W. M. AMY, D. BOWES, P. H. BURRI, J. HAINES and W. M. THURLBECK 131

Some observations on the ultrastructure of the stellate cells of the pars distalis of the guinea-pig. By B. A. YOUNG 153

The effect of adrenal glucocorticoid administration on eruption rates and tissue dimensions in rat mandibular incisors. By P. C. BALL . . . 157

Remodelling in immature hyaline cartilage; changes in matrix dry mass. By J. G. MATTHEWS and D. J. GOLDSTEIN 165

Cortical bone loss in triamcinolone-treated mice. By MICHAEL SILBERMANN, TAMAR KEDAR and URIEL KLEINHAUS 179

Microradiographic and histological examination of the split-line formation in bone. By J. C. BUCKLAND-WRIGHT 193

PAGE

The effects of implantation of an extra nerve on axonal sprouting usually induced by botulinum toxin in skeletal muscle of the mouse. By L. W. Duchen and D. A. Tonge 205

Changes in the mucosal surface area of the small gut of rats of different ages. By L. Pénzes and I. Skála 217

Proceedings of the Anatomical Society of Great Britain and Ireland, January 1977, including a Symposium on Tissue Interactions in Development 223

PART 2 NOVEMBER 1977

A numerical relationship between chromaffin-positive and small intensely fluorescent cells in sympathetic ganglia. By K. W. Kemp, R. M. Santer, J. D. Lever, K-S. Lu and R. Presley 269

Syncytial knots and intervillous bridges in the human placenta: an ultrastructural study. By Carolyn J. P. Jones and H. Fox 275

The sheep trophoblast and placental function: an ultrastructural study. By D. P. Boshier and Hilary Holloway 287

Diaphysial nutrient foramina in human metacarpals and metatarsals. By S. M. Patake and V. R. Mysorekar 299

Organization of neurons in the visual cortex, area 17, of the rat. By J. G. Parnavelas, A. R. Lieberman and K. E. Webster 305

Stereological analysis of the mitochondrial compartment of the rabbit parotid gland before and after isoprenaline-induced degranulation. By G. H. Cope 323

An acetylcholinesterase band-pattern in the molecular layer of the cat cerebellum. By Enrico Marani and Jan Voogd 335

Structure of the intra-chorionic blood sinus in the chick embryo. By Roberto Narbaitz 347

Cutaneous arteriovenous anastomoses present in the tail but absent from the ear of the rat. By R. T. Gemmell and J. R. S. Hales 355

Myomuscular junctions in re-innervated rat skeletal muscle. By S. Pierobon Bormioli and S. Schiaffino 359

Myosin ATPase activity after strengthening exercise. By M. Mazher Jaweed, Gerald J. Herbison and John F. Ditunno 371

Formation of concentric whorls of rough endoplasmic reticulum in the adrenal gland of the Mongolian gerbil. By Peter A. Nickerson 383

Cytochemistry of blood cells in peripheral smears of some West African reptiles. By A. E. Caxton-Martins 393

The proliferation of elastic fibres after skin incisions in albino mice and rats: a light and electron microscopic study. By David Schwartz . . . 401

PAGE

Subsegmentation of the human liver. By S. C. Gupta, C. D. Gupta and A. K. Arora 413

Humps on young human and rabbit articular cartilage. By F. N. Ghadially, E. M. Moshurchak and I. Thomas 425

Observations on the fusion of chick embryo myoblasts in culture. By J. Fear 437

A reappraisal of the ultrastructure of the human respiratory nasal mucosa. By A. Busuttil, I. A. R. More and D. McSeveney 445

Regeneration of muscles transplanted between normal and dystrophic mice: a quantitative study of early transplants. By J. S. Neerunjun and V. Dubowitz 459

Growth pattern of the rabbit snout dorsum: a serial cephalometric radiographic study with radiopaque implants. By Bernard G. Sarnat and Abbe J. Selman 469

In Memoriam: Beatrice Huang-Chan Shuk-Tsz 475

In Memoriam: Norman E. Shaw 477

Book Reviews 479

Proceedings of the Anatomical Society of Great Britain and Ireland, March, 1977, including a Symposium on Skin 483

Proceedings of the Anatomical Society of Australia and New Zealand 513

PART 3 DECEMBER 1977

Surgical aspects of the anatomy of the sphenoidal sinuses and the sella turcica. By J. Kinnman 541

The response of gut-associated lymphoid tissue in gnotobiotic piglets to the presence of bacterial antigen in the alimentary tract. By J. C. Anderson 555

Facial and visceral arch development in the mouse embryo: a study by scanning electron microscopy. By Arnold Tamarin and Alan Boyde 563

The relationship between sarcomere length in the soleus and tibialis anterior and the articular angle of the tibia–calcaneum in cats during growth. By C. Tardieu, J. C. Tabary, E. Huet de la Tour, C. Tabary and G. Tardieu 581

The penile bone and anterior process of the rat in scanning electron microscopy. By W. A. Beresford and S. Burkart 589

Ultrastructural aspects of bilirubin encephalopathy in cochlear nuclei of the Gunn rat. By Jean Y. Jew and Terence H. Williams 599

Light and electron microscopic studies on the intrinsic innervation of the guinea-pig seminal vesicle following selective axotomy. By A. G. H. Al-Zuhair, J. A. Gosling and J. S. Dixon 615

PAGE

The coraco-acromial ligament and projection index in man and other anthropoid primates. By Russell L. Ciochon and Robert S. Corruccini . 627

The anterior and the posterior longitudinal ligaments of the lower cervical spine. By Koichiro Hayashi, Takeshi Yabuki, Takahide Kurokawa, Hiroyuki Seki, Masanobu Hogaki and Shigeki Minoura . . . 633

Ultrastructural localization of adrenergic nerve terminals in the circular muscle layer and muscularis mucosae of rat duodenum after acute treatment with 6-hydroxydopamine. By W. C. Wong 637

Development of ossification centres in the squamous portion of the occipital bone in man. By H. C. Srivastava 643

Pattern of talar articular facets in Indian calcanei. By S. C. Gupta, C. D. Gupta and A. K. Arora 651

Postnatal development of the epithelium of larynx and trachea in the rat: scanning electron microscopy. By J. J. Smolich, Bernice F. Stratford, J. E. Maloney and B. C. Ritchie 657

Proliferation and differentiation of trophoblast in the establishment of the rat chorio-allantoic placenta. By Sandra Peel and D. Bulmer . . . 675

Observations on the intracranial carotid rete and the hypophysis in the mature female pig and sheep. By Philomena McGrath . . . 689

Complexity of branching in dendritic trees: dependence on number of trees per cell and effects of branch loss during sectioning. By Myra L. Samuels, Jay E. Mittenthal, George P. McCabe Jr. and Paul D. Coleman . 701

The ultrastructure of the sensory nerve endings in the articular capsule of the knee joint of the domestic rat (Ruffini corpuscles and Pacinian corpuscles). By Z. Halata 717

The mitotic response of the stratified squamous epithelium at the edge of large perforations of the tympanic membrane in guinea-pigs. By D. R. E. Reeve 731

Ultrastructural studies on the differentiation of spermatids in the domestic fowl. By V. K. Gunawardana and M. G. A. D. Scott . . . 741

Insulin deficiency and cell proliferation in oral mucosal epithelium of the rat. By A. Ian Hamilton and H. J. J. Blackwood 757

Ultrastructure of the epithelial cells in the epididymal region of the turkey (*Meleagris gallopavo*). By R. A. Hess and R. J. Thurston . . . 765

Postnatal growth of Brunner's glands in the mouse. By A. A. Obuoforibo and B. F. Martin 779

A radiographic study of the human fetal spine. 2. The sequence of development of ossification centres in the vertebral column. By K. M. Bagnall, P. F. Harris and P. R. M. Jones 791

Anatomical Note. The course and relations of the left phrenic nerve in the neck. By George Qvist 803
